ASR Mini Basis phono preamplifier !

The ASR Mini Basis Phono preamp has the following features :

- The case is made from high-quality, lightly transparent **acrylic glass**
- Highly efficient, **shielded 72 VA PM (Philbert Mantelschnitt) transformer**
- **High-quality magnetic sheet metal** with a low magnetic field gives good dynamic
- Ultra fast **Schottky-Rectifier**, buffer **200,000 uF** with Philips switchmode Elkos
- Very fast and extremely low-noise **IC's** made by **Analog Devices**
- **Input resistance** switchable 22, 47, 100, 221, 475 Ohms, 1, 2.2, 9, 15, 47 k Ohms
- **Gain** adjustable with 6 fold Dip switch between +30 dB to +70 dB

The soundpicture is very smooth and relaxing - typically for ASR products.

As a result from the large power supply the ASR Mini-Basis sounds very dynamic and has a very powerfull and controlled bass. The sound picture is very precise and has a good three-dimensionality with a very high dissolution of details.

Also available as “**Mini Basis Exclusive**” with **AD843SQ** and **Magic Cord !**

Dimensions : 268 mm B x 320 mm D x 110 mm H, weight approx. 4 kg

Available with engravement in silver or gold. The complete unit is hand made.
